Why choose TreCe?

We are one of the leading Nordic suppliers of storage furniture. We have reached this position by developing continuously.

With over forty years of experience we have together with our customers managed to collect a lot of knowledge, and through the years we have learned what works.

Our long experience together with a strong innovation drive drives us forward and creates the conditions for continuously developing new storage and recycling solutions.

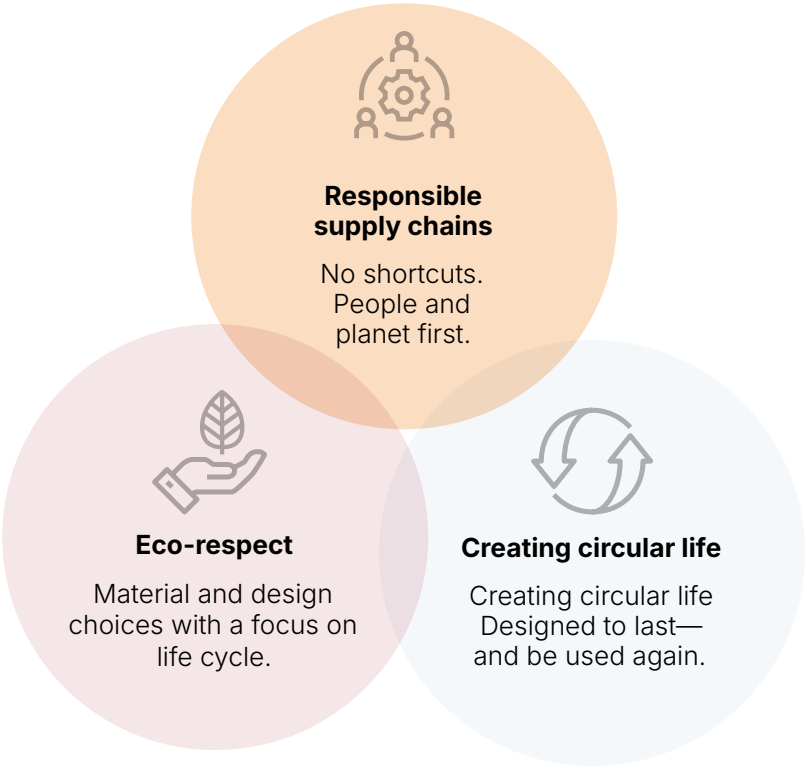

Design & sustainability

Voices that act. Decisions that last.
Products built to live longer.

We're not looking for words that sound good.
We're looking for decisions that last.

That's how we work with sustainability and design: by creating storage and waste-sorting products made to be used for a long time, repaired when needed, and fit into circular flows. We take a life-cycle perspective in product development—from raw materials and production to use, maintenance, and end-of-life—to make more informed choices.

→ Learn more about our journey

Cooperation is key

We value our customers' opinions because they offer crucial insights into which products we should develop to meet market needs. Before starting any project, we take time to understand what challenges exist and create a plan to solve them - together. By working closely with our customers from the first conversation to the final delivery, we ensure their ideas and feedback are part of every step.

We are experts in storage
We are happy to share our knowledge with our customers, whether it is about flexibility and function in the modern office or smart solutions for the activity-based offices of the future. With our experience and knowledge, we create an optimal solution.

Feel free to contact us for a presentation, to find out more about how we can together create a working solution.

Our designers
At TreCe, we have designed several of our products ourselves. These have in most cases taken shape based on needs we have seen in the market but also from the input that our customers give us.

We have also chosen to collaborate with other designers. This has in several cases proved to be a stroke of luck. With new input, innovative solutions and a fantastic design, we have won international awards.

Cooperation is the key.

Our designers

Kauppi & Kauppi

Kauppi & Kauppi is a design duo working with furniture, lighting and industrial design - from large spatial objects down to objects in the scale of the hand.

Nina and Johan have their roots in the south and north of Sweden and both have a Master's degree in Design from HDK, the Academy of Art and Design at the University of Gothenburg.

Kauppi & Kauppi's close collaborations with manufacturers have been recognized with several national and international design awards.

Bernstrand & Borselius

The two designers, Thomas Bernstrand and Stefan Borselius, have been working together for 8 years, but both have been in the industry considerably longer.

Bernstrand and Borselius have been running their own design offices for over 20 years, specializing in furniture and interior design. Bernstrand in Stockholm and Borselius in southernmost Skåne.

Over the years, they have worked with several prestigious companies together and separately. In 2022 they jointly launched a collaboration with TreCe.

Jangir Maddadi

Jangir is passionate about creating objects with a strong identity. Every millimetre of his design is contemplated. Each object has its own history. Every product he creates is a beautiful, functional sculpture. He strives to design meaningful products that live on from generation to generation.

One ambition is to always create innovative and sustainable products that are functional, beautiful and completely independent of trends. Products that are neither modern nor classic, they are timeless.

Annica Doms

Educated at Luleå University of Technology. Annica's Master degree project, Kite Bin for TreCe, has been awarded the Red Dot Design Award and the German Design Award. Today, Annica is a design consultant at Studio Doms.

The collaboration with TreCe is based on relevant and well-thought-out design that supports every function, inspired by functional design from the past.

David Doms

Designer and founder of Studio Doms. David has a master's degree in industrial design from Luleå University of Technology and has also studied lighting and luminaire design.

Studio Doms was started in 2010 and the company is today active in the areas of furniture design, product design, design strategy and graphic design.

Ebba Hellberg & Sigrid Ljungström

A contributing factor to TreCe's continuous development of innovative design solutions is our recurring collaborations with design students. Recycling unit Cloud is a well-priced example, developed together with Chalmers students Ebba Hellberg and Sigrid Ljungström.

Cloud has quickly developed into a product family and won first prize in the German Design Award 2019, Excellent Product Design in the category office furniture/environmental sorting.

Saffron RAL 1017

Wavy

Design | **David Doms**

Wavy is an elegant and spacious waste bin designed for public space recycling. It's shape makes it flexible and easy to place – free-standing in a room, against a wall, around a pillar, or in a corner, either alone or in a group.

The curved top creates a beautiful play of shadows, and when placed in groups, it forms a dynamic wave pattern. Wavy comes in a version with an open slot as well as with a swing lid designed for one-handed use. Perfect for those on the go with their hands full.

Wavy is made from robust steel sheets. The construction allows for easy disassembly and replacement of parts in case of damage or maintenance. Wavy's dimensions are optimized for resource-efficient and environmentally-friendly transportation.

Order Wavy in your preferred RAL colour and complete it with waste symbols for easy sorting.

VERIFIED ISO 14025

Overview

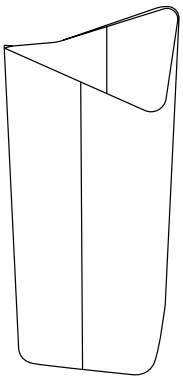

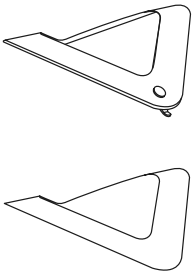

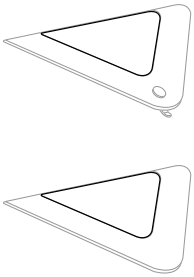

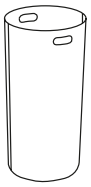

- The modules are made from 20% recycled robust steel with long durability.
- Circular product: the modules can be disassembled and replaced, refreshed, repaired, renovated, and recycled.
- The steel body is made of parts that are joined with screws and can be separated when renovation is needed.
- Inner containers, combined with a raised base, allow for the use of paper bags.
- The inner containers and raised base are made from 100% recycled plastic.

Accessories

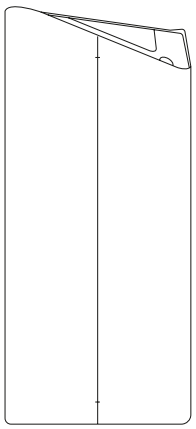

Product	Description	Size	Colour	Art.no.
Container	Approx. 45L Handle W80 x H30 mm Recycled ABS plastic 3 mm	Ø320 x H650	Grey	36700103
Base insert	Insert with perforated grid Recycled ABS plastic 3 mm	Ø240 x H100	Grey	36700203
Triangular key	Extra key for tops with lock	W50 x H80	Silver	34700112

Stackable container with handle.
Base insert is used as bottom insert in the container. The perforations allow airflow, reducing moisture buildup.
Add the base insert when using food waste bags as they often have a lower depth.

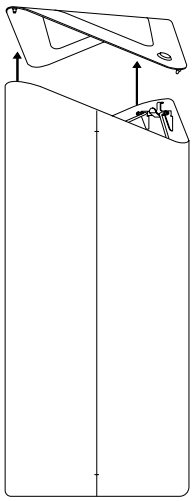

Change of rubbish bag

1.

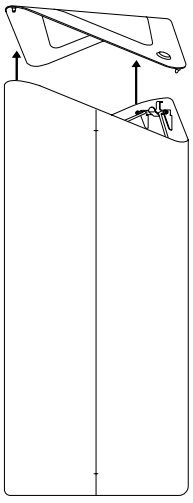

Wavy frame with lid.

2.

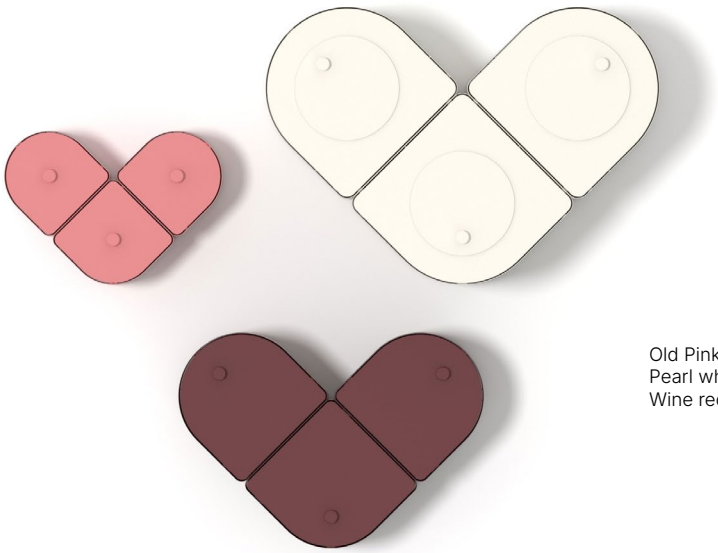

Lift up the lid. Lids with locks need to be unlocked before lifting.

3.

Remove the rubbish bag from the bag holder and lift it up to facilitate emptying. If there is a risk of leakage, use inner containers.

KLOSS

KLOSS / KLOSS SMALL / KLOSS MINI

Design | **Kauppi & Kauppi**

KLOSS recycling system reflects our need to separate and organise, putting the right materials in the right bins for recycling. What we used to define as waste is now a material resource that can be reused.

All interiors and situations have different conditions, with KLOSS there are almost endless possibilities to build whatever form and function is needed, in any RAL colour you wish. Creative and playfull recycling units for all environments.

”Modularity” is the basic idea and design essence of KLOSS. A vast and highly flexible, connectable modular system for recycling. Three different modules, made of steel, provide endless possibilities and shapes. Choice of modules and configuration, together with the choice of colour, top, lid and accessories - gives the recycling unit its final shape and expression.

Any RAL colour for an additional charge, contact TreCe.
Contact TreCe if more than 3 KLOSS are to be mounted next to each other, spacer template available.

KLOSS GO

Flexible, easy-grip handle that transforms the KLOSS modules into a mobile and adaptable recycling unit. The handle can be mounted on a group of 4 or 6 KLOSS modules and combined with sturdy wheels that can handle thresholds and other uneven surfaces.

Material: Powder-coated steel sheet + 30 mm Ø tube + wheels with TPE tread (2 of which are lockable)

Container 45 L and base insert

Base insert is used as bottom insert in the container. The perforated grid is anchored to ventilate moisture.

Add the base insert when using food waste bags as they often have a lower depth.

Triangular key

Rubber insert

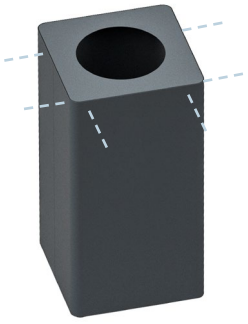

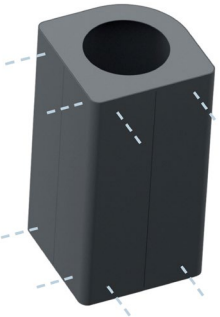

Connections

KLOSS is connected together with connection holes on each frame.

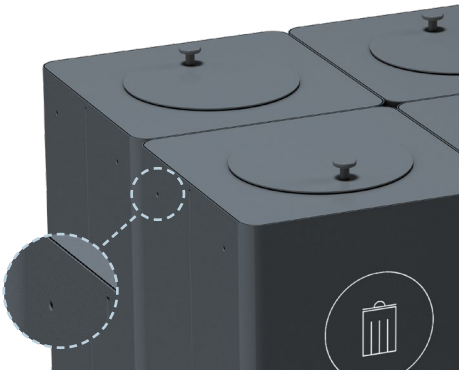

M1 - 6 connection holes

M2 - 4 connection holes

M3 - 2 connection holes

NOTE! The connection holes are included on all our frames and will be visible depending on which set you have.

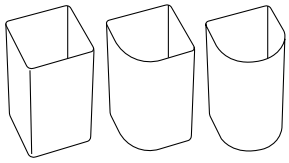

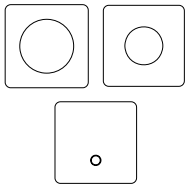

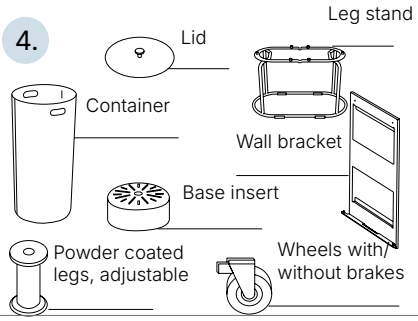

KLOSS Small Pearl white RAL 1013 with leg stand

KLOSS Small Pearl white RAL 1013 with wall bracket

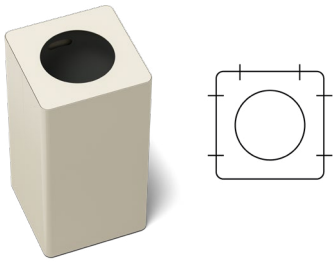

How to order KLOSS Small:

1.	2.	3.	4.
			
Choose frame and colour Bin with adjustable feet. Integrated bag holder included	**Choose top and colour** Soft closing fixed in powder-coated steel sheet	**Choose symbol** Order more symbols per unit, if the product is to be to be placed on a standalone basis	**Choose accessories** Legs or wheels, leg stand, wall bracket, lid, container and base insert

Frame

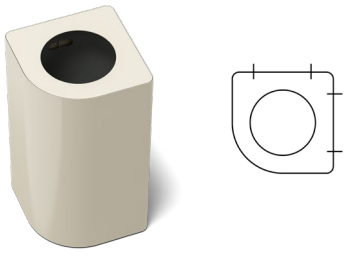

Powder coated steel sheet 1 mm
Width: 280 mm **Height:** 450 mm **Depth:** 280 mm

Markings on the illustrations refer to the visible mounting lines of the connection holes.

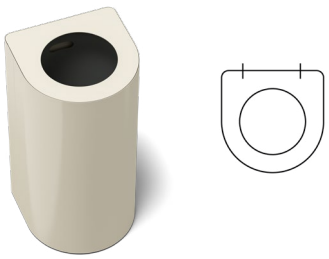

M1 Small: Square frame
Holds approx. 35 L

Etage 1730/3

Etage 870/1

Etage

Design | **Bernstrand & Borselius**

Etage is unique with its elegant design and multiple levels which effectively utilises the floor space in small spaces. It is made from carefully selected materials and is a practical and stylish piece of recycling furniture.

The frame of the Etage is made of oak veneer and is bent to its shape and is available in three colour options. The inlets are easy to clean and can be easily replaced and recycled. In addition, the bins are angled inwards to facilitate proper sorting of the waste. On the angled surface, symbols are placed to clearly show what should be disposed of and where.

Etage is also available as a top-fed waste sorting furniture. It makes it easy to sort waste and plant plants that purify the indoor air. On the top is a protective metal ring where the symbols are placed, which is also easy to clean.

Download product sheet

Etage

Recycling

Frame: Bentwood, Oak veneer FSC Mix
Inlet: 89-99% bio-based PLA plastic (sugar cane)
Container: 80% recycled (pre-consumer) ABS plastic
Heights: 1730 mm and 870 mm

Overview

- Available in three colour options – mocha stain, water-based clear lacquer or white stain.
- 80% recycled plastic inner bins that are easy to empty and hold the rubbish bags in place while protecting the fine wooden column from any leaks.
- The pots used for plants are also made from 80% recycled plastic and are stackable.
- Also available as a top-fed waste sorting furniture. It makes it easy to sort waste and plant plants that purify the indoor air.

Container/Planter

Included in the frame. 80% recycled ABS plastic
Colour: Anthracite

Container High

- Fits in Etage 1730/2, 870 top loaded bin and 870/1
- Holds 80 L
- Adapted for 85–125 L waste bags
- Height: 636 mm
- Ø: 390 mm

Container Low

- Fits in Etage 1730/3 and 1730/6
- Holds 45 L
- Adapted for 85–125 L waste bags
- Height: 390 mm
- Ø: 390 mm

Container Low half

- Fits in Etage 1730/6
- Holds 22 L
- Adapted for 40–45 L waste bags
- Height: 390 mm
- Depth: 195 mm
- Width: 390 mm

Planter

- Fits in Etage 870 planter
- Holds 35 L
- Waterproof and suitable for planting of potted plants
- Height: 282 mm
- Ø: 390 mm

Inlet:
89-99% bio-based PLA-plastic, biological material sugarcane

Hightower & Popsicle

Design | **Jangir Maddadi**

Hightower and Popsicle are part of a range of waste bins for both indoor and outdoor environments. The frame is made of galvinised steel sheet that can be lacquered in our standard colours or any RAL colour.

Popsicle holds 57 L, adapted for waste bags 85-125 L and Hightower holds 125 L, adapted for waste bags 85-140 L.

There are 3 different versions of leg stands for Popsicle, depending on how and where you want to place it. Legs for Hightower are available in 3 different versions, oak legs, stainless steel legs where both have adjustable feet and then a concrete base with 4 stainless steel legs.

Naturally it is stainless steel for outdoor use and Swedish steel plate for indoor use, there are also different options for anchoring Popsicle to the foundation.

Hightower

Recycling

Frame: Powder coated galvanised steel sheet
Lid: Stainless steel sheet
Legs: Lacquered wooden legs in oak for indoor use, powder coated stainless steel legs and concrete base for indoor and outdoor use
Volume: 125 L

Overview

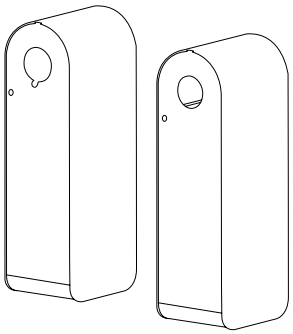

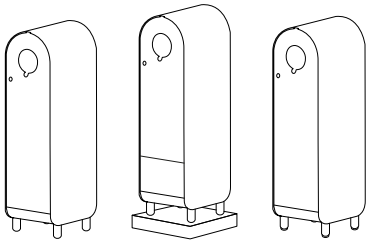

- The frame in powder-coated galvinised steel sheet is manufactured in Sweden and consists of 20% recycled (pre-consumer) material.
- The steel sheet is 100 % recyclable.
- Legs for Hightower are available in 3 different versions, oak legs from certified wood (FSC 100%), stainless steel legs where both have adjustable feet and then a concrete base with 4 stainless steel legs. The wooden legs are only suitable for indoor use but the other options work well outdoors.
- There are inlets on both the front and back. If placed outdoors, we recommend Popsicle/Hightower with a lid for bird protection.

Accessories

Name	Size	Color	Art. no.
Birdie plastic bag	85 L 25 pcs	Transparent	33700100
Birdie moisture protection	Ø300 H: 220	Transparent	33700200
Waste shelf, standing H 150-270 mm	Ø265 H: 150	Anthracite	33700304

Waste shelf round with adjustable height 150-270 mm.

Birdie Moisture Protection Bottom, fits both Birdie 500 and 750. Can be placed with or without the waste shelf.

The lid can be easily removed for cleaning and is dishwasher safe. The lid in the closed position prevents odours and provides splash protection in the open position.

Birdie's clever design makes it easy to empty.

Clean

Dispenser stand

Overview

- Designed to facilitate hand disinfection in public environments and thereby reduce the spread of infection.
- Modular stand with accessories such as bottle holders (750 ml and 1000 ml), paper holder, waste bin, and top sign – all can be positioned at any height.
- Perforated square holes make it easy to attach accessories where they fit best, for example at different heights for environments like preschools or high schools.
- Manufactured in Sweden from powder-coated steel sheet, ensuring high quality and durability.
- The inner container is made from 100% recycled (preconsumer) ABS plastic.

2. Add accessories – dispenser holders
3. Add accessories – sign holder
4. Add other accessories such as holder for Tork M1, Clean Hold mini waste bin.

GERMAN DESIGN AWARD WINNER 2019

Brilliant blue RAL 5023

Cloud

Design | **Ebba Hellberg & Sigrid Ljungström**

Cloud is a mobile recycling unit designed to fit into a modern work environment where flexibility and aesthetics are two key factors. A simple and classy design with the characteristic rounded corners and the bold wheels that invite you to move Cloud around.

With inlets from both sides, Cloud can be placed against a wall or in the middle of a room. Cloud's frame is available in both laminate and lacquered MDF. Doors and backs in powder coated steel.

Cloud is equipped with doors for easy emptying. Doors and backs are equipped with specially designed recycling symbols, and with the possibility to choose color and labeling, Cloud can be adapted to different types of environments and needs. The high quality wheels are swivel and lockable.

Cloud

Recycling

Frame: Laminate or lacquered (water-based) MDF
Doors and backs: Powder coated steel
Wheels: Rubber surface with brakes, 80 kg load capacity per wheel
Volume: 70 L per inlet

Overview

- Classy design with rounded corners and bold wheels that invite you to move Cloud around. With inlets from both sides, Cloud can easily be placed either against a wall or in the middle of a room.
- Frame is painted with water-based lacquer.
- The frame in MDF comes from a responsible forestry, meets the requirements for <65% E1 formaldehyde and CARB2.
- Fitted lip on the inside of doors lead waste into the bag. Designed for 85-125 litres bags.
- Doors in powder-coated sheet steel are manufactured in Sweden and consist of 20% recycled (pre-consumer) material.
- Inlets from two directions, front (door) and rear (back).

Kite

Design | **Annica Doms**

A modular recycling bin designed by Annica Doms. Awarded the Red Dot Design Award and the German Design Award for its innovative form. Designed for modular building in different constellations. Kite fits against a wall or as a free-standing accent in the room.

The many possible combinations challenge the imagination and inspire creativity. Lids in eight different designs with varying hole designs and screen-printed symbols for different types of waste. Kite is available in eleven RAL colours with lids in three standard colours, white, anthracite and olive grey. Kite has a capacity of 70 litres, adapted for 85-125 litre waste bags.

Kite plastic bags		85 L, 25 pcs	Transparent	31700500
Kite moisture protection	For wet fractions like waste, organics and Bottles/cans	Ø450 x H350	Transparent	31700300
Waste shelf	Adjustable height, standing H 150-270 mm	Ø265 x H150	Anthracite	33700304
Container	Approx. 45 L Handle W80 x H30 mm Recycled ABS plastic 3 mm	Ø320 x H640	Grey	31700103
Base insert	Insert with perforated grid Recycled ABS plastic 3 mm	Ø240 x H100	Grey	31700203

Stackable container with handle.

Base insert is used as bottom insert in the container. The perforated grid is anchored to ventilate moisture.

Add the base insert when using food waste bags as they often have a lower depth.

Waste shelf with adjustable height, standing H 150-270 mm.

Kite moisture protection base for easy cleaning. Recommended for wet fractions like waste, organics and Bottles/cans.

Kite available with lock, contact TreCe.

Complete module

Kite mini

Design | **Annica Doms**

Kite mini is based on the same shape and is an exact copy of Kite, but in reduced size. Its' shape makes it ideal for placement in corners of varying angles.

Kite mini is intended for smaller spaces, for example under desks, hotel rooms or smaller conference rooms. It also has a wall bracket, which means that it can be placed on a wall as a single or in pairs to free up floor space.

Kite mini has no fittings and requires no tools, which means you can assemble it by hand in just 4 minutes. Thanks to its thoughtful design, the sides simply click together and it's ready to use.

Kite mini

Recycling

Frame: Powder coated steel plate

Lid: Vacuum-foiled MDF with screen print

Volume: 10 L

Overview

- Innovative shape designed for mudlarity in different configurations.
- Holds angles of 60°, 90° and 120° which makes it ideal for placement in corners of varying angles.
- Lid comes in six different designs with varying shapes for different types of waste.
- The frame in MDF comes from a responsible forestry, meets the requirements for <65% E1 formaldehyde and CARB2.
- The frame in powder coated steel plate is manufactured in Sweden and consist of 20% recycled (pre-consumer) material.
- Easy to assemble, no tools needed.

Hold

Design | **Tengbom**

TreCe has together with Tengbom architects developed the recycling bin Hold. A collaboration that started with Tengbom seeing a need for a different and functional recycling bin that could meet the needs of smaller spaces such as conference rooms, hotel rooms, smaller meeting rooms, etc. TreCe was contacted and the result was Hold.

A small and functional bin with a lid that is available in 7 different inlets. There is also a wall mount for Hold, which means that it can be placed on the wall. Hold is available in 11 RAL colors as standard.

Ridge

Design | **Studio Doms**

Ridge, with its special expression, becomes a different and expressive feature in the modern office. It gives the impression of an interior detail, not just a recycling station. Details such as bevelled outer edges and a slight distance between the frame and top show a feel of quality and detail.

A very stable construction that is built of 22 mm MDF and lacquered in 11 standard colours. The stainless steel ramp for easy access to a 140 L waste bin is not only a practical detail but also a part of the design that stands out.

Ridge is also available in two heights, low and high. What distinguishes low and high is the slope of the upper frame. Both versions are easily emptied with the door's aximate hinges, and 135° opening. Ridge can be ordered with different recycling symbols depending on the purpose and waste.

Space

Cabinet/Recycling unit

Design | **TreCe**

Space Cabinet/Recycling Unit are flexible modules designed for shared storage and recycling in office spaces. Space is easy to integrate thanks to its cohesive and well-thought-out design, featuring a comfortable working height of 882 mm. The carefully crafted details, such as fully covered doors, create a seamless and sleek appearance.

The single and double module frames can be freely combined with shelves, partitions, doors, and drawers in various styles. The fronts are fully covered and equipped with push-to-open fittings, except for doors with disposal chutes. You can choose from one of the pre-designed modules or create your own variant.

Matching bin holders are available as accessories. Pre-designed modules with disposal chutes in the front feature a pull-out bin holder behind the door, recommended for waste bags of 85-125 litres. Worktops in compact laminate or high-pressure laminate can be ordered with cut-outs.

Recycling

Frame/Front: 16 mm

Plinth: 143 mm

Volume: 85 - 125 L

Overview

- Counters and recycling units at working height, 822 mm.
- Frames in single and double modules can be freely combined with shelves, partitions, doors and drawers in several variants.
- Choose freely from any of the complete modules or assemble your own variant.
- Suitable bag holders are available as accessories.
- Modules with front inlets have the inlet positioned at a height of 700 mm (H70) on the door as standard. Behind the door, there is a convenient, pull-out bag holder for rubbish bags of 85 - 125 liters.
- The fronts are complete and easily opened with push open fittings. Does not apply to doors with inlets.

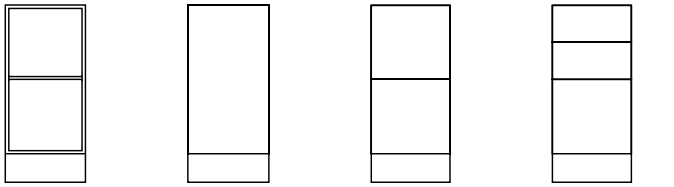

Complete modules

Frame, plinth, back 16 mm thick: In white direct laminate, with 0.8 mm straight ABS edging.
Fronts, 16 mm thick, lacquered MDF:
White/White = Body in white laminate with fronts lacquered in NCS S 0500-N, white.
White/NCS = Frame in white laminate with fronts lacquered in any NCS colour.
Plinth height: 143 mm
Inner dimensions of drawer H182: B325 x H127 x D420 mm
Inner dimensions of drawer H366: B325 x H311 x D420 mm.

Space Cabinet has drawers with high sides, 100% extension, max load weight 35 kg with push open fittings.

CombiLine

Recycling unit/Recycling station

Design | **TreCe**

With CombiLine recycling unit, you can combine your own recycling station by choosing freely from the various modules that are easily combined to cover the entire company’s waste management and sorting. Recycling units are specially designed for use in offices, so that it is smooth, functional and error-free to recycle. It’s also important that the recycling becomes part of the office’s aesthetics, with our products you can create an integrated and coherent design that measures up.

CombiLine reade made recycling stations cover the entire waste sorting for both large and small offices. Frames and doors in standard white and worktops in high-pressure laminate, anthracite. Stainless steel handles are standard. All drawers with soft closing and full extension that can withstand loads up to 35 kg.

Recycling station

Frame: 19 mm
Front: 16 mm
Plinth front: 75 mm
Volume: 10 - 190 L

Overview

- Ready combined recycling stations that cover the entire waste sorting for both large and small offices.
- Frames and doors in standard white and worktops in high pressure laminate.
- Stainless steel handles are standard. Would you like black or white handles, note this in your order.
- All drawers have with soft closing and full extension that can withstand loads up to 35 kg.
- Complete with environmental symbols and suitable containers.

Recycling station – ready combinations

Name	Size	Art. no.
Recycling station 1	1020x1174x760	820500
Recycling station 2	1670x1174x760	820501
Recycling station 3	970x1174x600	820502
Recycling station 4	970x1174x600	820503

Recycling station 1. Ready module (1020x1174x760 mm) with inlets. 350x350* mm in the worktop. The station is adapted for 190 L recycling containers/ cardboard cart and 19 + 10 L recycling containers. Recycling containers and cardboard cart are not incl. Stainless steel handles are included as standard.

Recycling station 2. Ready module (1670x1174x760 mm) with inlets. 350x350* mm in the worktop. The station is adapted for 190 L recycling containers/ cardboard cart and 19 + 10 L recycling containers. Recycling containers and cardboard cart are not incl. Stainless steel handles are included as standard.

Recycling station 3. Ready module (970x1174x600 mm) with inlets 250x250* mm in the worktop. The station is adapted for 140 L recycling containers/ cardboard cart/bag holder and 19 + 10 L recycling containers. Containers, bag holders and cart are not incl. Stainless steel handles are included as standard.

Recycling station 4. Ready module (970x1174x600 mm) with inlets 250x250* mm in the worktop. The station is adapted for 140 L recycling containers/cardboard cart and 10, 19 and 60 recycling containers. Recycling containers and trolley are not included. Stainless steel handles are included as standard.

Worktops

High pressure laminate, 23 mm standard work tops coated with high pressure laminate and 2 mm airtec-lipping*.

Airtec-lipping, also known as laser edging, provides an almost invisible joint between the worktop and edging strip. Thus provides a higher protection against water and heat. This new technology is glue-free, which results in a lower environmental impact.

Contact TreCe if you want a top disc in another material.

Specifications Space

MFC laminated surfaces within Space have a chip core, with the exception of some shelves. Back, frame and edging strip have matching colours unless otherwise stated.

Lacquered fronts, Shoe shelf, Open shelf/Bench and Storage box open/Flower box have an MDF core: Water-based lacquer. Textiles at an additional cost.

Frame incl. plinth
Thickness 16 mm, 0.8 mm straight ABS-lipping.
- MFC laminate, white.
- Lacquered, any NCS-colour.
- Double module, width 790 mm.
- Single module, width 395 mm.

Back
Thickness 16 mm, same finish as the cabinet, inside and out.

Plinth
Each unit has its own setback plinth, front and rear, with 4 adjustable feet. Plinth height 143 mm.

Leg stand
Leg stand in steel with adjustable feet, 4 legs. Delivered not fitted to cabinet, leg stand must be adjusted in height before cabinet is lifted on.
- Leg stand double fits Space double.
- Leg stand triple fits 1x Space double + 1x Space single.
- Leg stand height 143 mm.
- Available in 11 RAL colours.

Fronts
Seamless fronts, thickness 16 mm
- Lacquered MDF in any NCS colour, water-based.
- Direct laminate in oak and ash with 2 mm straight ABS lipping.

Inside dimensions:
- Space door low: W363 x H424 x D454 mm.
- Space door middle: W363 x H573 x D454mm.
- Space door high: W363 x H864 x D454 mm.

Drawers
Drawers have soft closing. Extension capacity of 100%, maximum weight 35 kg. Drawers with railings or with elevated sides.

Doors to Space recycling units and Space counter
With push open.

Seat module with hatch door
Opens downwards with gas spring.
Milled-in handle. Are powder coated white as standard. Can be painted in any RAL colour at an additional cost.
Cushions and fabric are additional.

Shoe shelf, Open shelf/Bench and Storage box open/Flower box
Thickness 16 mm.
- Lacquered MDF, any NCS colour, oak and ash laminate.
- Modules aligned with fronts.
- Plant pot can be combined with plastic box 19 L.
- Accessories: Seat cushion.

Double doors Wardrobes
With milled-in handles. Are as standard powder coated, white. It can be painted in any RAL colour at an additional cost.

Mail inlet
Powder coated steel, White (RAL 9010).
Opening 290x20 mm. Mail inlet has an angled steel lip on the inside of the door.

Hinges
- Self closing concealed hinges with integrated soft closing.
- Doors are right-hung as standard.

Shelves, fixed
Shelves mounted with milled-in connection fittings that are secured with screws.
- Shelves lockers have a chip core
- Shelves for wardrobes have a lamellar wood core.

Shelves, movable for personal storage
The shelf is recessed in the front edge.
Mounted with milled shelf brackets, movable according to drill division c/c 32 mm.

Shelves, movable for storage
Installed with milled shelf brackets, movable according to drill division c/c 32 mm.
- 363 - 371 mm has chip core thickness of 16 mm.
- 755 mm has laminated core with pine wood thickness 19 mm, max weight 120 kg.

Cover panels/Top cover
Thickness 16 mm.
Lacquered MDF, any NCS colour, oak and ash laminate.

Top cover in compact laminate, black core
Thickness 12 mm.
- F2255, white
- F2297, anthracite
- F5343, olive grey

Worktop in high pressure laminate
Thickness 23 mm
High-pressure laminate: 23 mm standard boards coated with high-pressure laminate and a 2 mm matching air tech-lipping*

Inlets for top cover, compact laminate
- Inlets square B220 x D220 mm
- Inlet custom, max. size B220 x D260 mm

Accessories
Space shelf insert, clothes rail, carpet, clothes hook, anchor hook, mirror and cork box Stuff.

Cabinet locks
Robust cabinet locks with master key system, individual lock numbers and 2 keys as standard. Identical locks are available at extra cost.

Lock types
Different types of locks and fittings are available for doors, such as electronic RFID locks, code locks, cabinet locks, padlock fittings and push-to-open. For network-based locks contact TreCe for individual advice.

General care instructions

Metal
Wipe with a slightly damp, soft lint-free cloth and mild detergent. Always wipe dry with a dry cloth. Never use solvents on painted metal nor any abrasive cleaners/ materials.

Wood
Wood is a living material and is affected for example by seasons, heat and humidity. Direct sunlight will give surfaces permanent colour and light differences. To avoid colour shifts, all surfaces should be exposed to equal amounts of light.

Normal/daily cleaning:
Dust dry and clean with mild soap solution or mild hand washing-up liquid. Wipe dry with a dry cloth. Never use strong detergents, solvents or products containing abrasives. Remove all stains as soon as possible and wipe the surface dry after cleaning.

Note! Use a minimum amount of water.

General info

***Airtech-lipping:** Airtec-lipping, also known as laser edging, provides an almost invisible joint between the worktop and edging strip. Thus provides a higher protection against water and heat. This new technology is glue-free, which results in a lower environmental impact.

Mounting
All modules are factory mounted. Worktops/ Cover panels/Top cover panels are mounted on site.

Warranty
We provide a 5 year factory warranty on Space. Other products, contact TreCe.

Contact TreCe for customisation of selected product.

Specifications CombiLine

MFC laminated and lacquered surfaces within CombiLine have a chip core, with the exception of some shelves. Back, frame, doors and edge strips have the same colour/wood as other parts as standard, unless otherwise stated.

- MFC laminate white, beech, birch and oak.
- Lacquered available in any NCS-colour, waterbased.

Back
Thickness 12 mm, same finish as the cabinet, inside and out.

Plinth
Every module has its own front and back plinth with 4 adjustable feet (does not apply to recycling units with loading ramps).
Plinth 157 mm. Can be replaced with;
- Bottom plate with adjustable stainless steel legs, height 157 mm.
- Bottom plate with lockable wheels, height 104 mm.

Doors
Thickness 16 mm, 2 mm straight lipping.
- Direct laminate in white with white ABS edging, air-tech lipping*
- Direct laminate in beech, birch, and oak with matching ABS lipping
- Lacquered surfaces available in any NCS colour, water-based
- Self closing concealed hinges with integrated soft closing (does not apply to products with aximat hinges with 180° opening).
- Single doors are right-hung as standard.

Drawer fronts
Drawer front, low: 173 mm
Drawer front, high: 349 mm
Thickness 16 mm, 2 mm straight lipping.
- Direct laminate in white with white ABS edging, air-tech lipping*
- Direct laminate in beech, birch, and oak with matching ABS lipping
- Lacquered available in any NCS-colour, water-based.

Drawers
Drawers with depth 570 mm have soft closing.
- Extension 100%, max 35 kg (excl. recycling units).
- Extension 100%, max 65 kg.

Shelves
All shelves are adjustable and mounted with milled-in shelf support. Drill division c/c 32 mm.
- 312 – 605 mm have a chip core.
- 800 – 898 mm have a pine lamellar core.

Recycling unit
MDL60/MD60/MDH60/MD65/MD70
The bottom plate is equipped with an access ramp in stainless steel.
- Doors with aximat hinges for 180 degree opening for easy access to recycling containers.

Mail shelves
Adjustable with pull-out function and mounting strip, subdivision c/c 96 mm.
- Mail shelves in acrylic have integrated name slots.
- Mail shelves in powder coated steel white or black are available as an addition.

- Formica Collection Colours
- Formica Collection Woods
- Pfleiderer Wood decors

Inserts: Powder-coated steel insert, available in white or black.
- Round with diameter 110, 250 or 400 mm.
- Square 250x250 mm or 350x350 mm.
- Slim 340x40 mm.

Lid for insert: Powder-coated steel. Available for round inserts with diameters 250 and 400 mm.

Inserts: Stainless steel, integrated ring in worktop. Round 250 mm in diameter.

Lid for insert: Compact laminate, folded in/integrated into ring, thickness 6 mm
- Round 250 mm in diameter with knob.
- Compact laminate, Formica F2297 (anthracite) alt. F2255 (white).

General care instructions

Metal
Wipe with a slightly damp, soft lint-free cloth and mild detergent. Always wipe dry with a dry cloth. Never use solvents on painted metal nor any abrasive cleaners/materials.

Wood
Wood is a living material and is affected for example by seasons, heat and humidity. Direct sunlight will give surfaces permanent colour and light differences. To avoid colour shifts, all surfaces should be exposed to equal amounts of light.

Normal/daily cleaning:
Dust dry and clean with mild soap solution or mild hand washing-up liquid. Wipe dry with a dry cloth. Never use strong detergents, solvents or products containing abrasives. Remove all stains as soon aspossible and wipe the surface dry after cleaning.

Note! Use a minimum amount of water.

General info

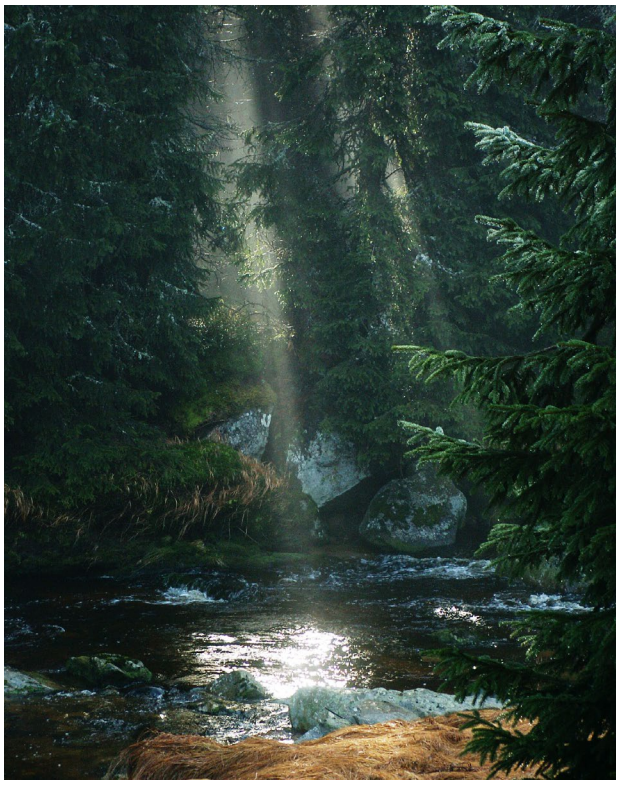

***Airtech-lipping:** Airtec-lipping, also known as laser edging, provides an almost invisible joint between the worktop and edging strip. Thus provides a higher protection against water and heat. This new technology is glue-free, which results in a lower environmental impact.

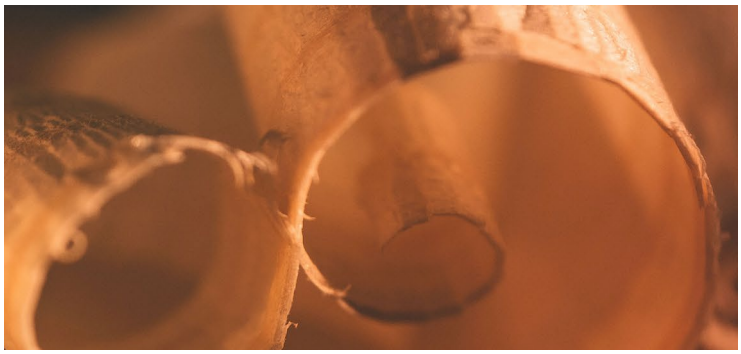

Mounting
All modules are factory mounted. Worktops/Cover panels/Top covers are mounted on site.

Warranty
We provide a 5 year factory warranty on CombiLine. Other products, contact TreCe.

Cabinet locks
Robust cabinet locks with master key system, individual numbers with 2 keys as standard. Identical locks available to addition. Contact TreCe for customization of selected product.

Our sustainability work

Our focus

Eco respect
We work with materials and construction where we can make the biggest practical difference: less unnecessary material, smarter solutions, and more thoughtful choices. When we track climate impact, we use established life-cycle principles as decision support and carry out calculations for selected products or areas where it is relevant.

Responsible supply chains
Sustainability is also about people. That's why we set requirements for responsibility in areas such as working conditions, human rights, and the environment—and follow up using a risk-based approach. We aim to build relationships that stand up to scrutiny and evolve over time.

Circular lives
Circularity doesn't happen by itself. It is designed. We develop products with a focus on long service life— and solutions that can facilitate reuse, service, repair, and material recycling where it is possible and relevant.

Transparent sustainability communication

We don't try to sound "greener" than we are. We avoid broad statements without a clear basis and instead describe what we do, how we do it, and what it covers.

Terms and conditions

Sales and Delivery Terms: All prices are excluding VAT and shipping. We reserve the right for any price and design changes and reservation for printing errors.

All products are delivered FCA (our warehouse) according to Incoterms 2020 unless otherwise agreed. Some products are delivered unassembled. Costs for packaging, certified pallets and pallet collars will be added.

Payment terms: 30 days after approved credit check unless otherwise agreed. Delivered products remain our property until
full payment is made.

Transport damage: In the case of visible damage or incomplete delivery, this must be reported immediately to the transport company and noted on the consignment note. The freight forwarder confirms the listing with his signature. Damage that is not visible upon receipt is reported to the transport company as soon as possible, but no later than 6 working days from the date of receipt.

Claims: In the event of a product defect or if the content of the delivery deviates from the order, a claim must be made within 6 days of arrival date. Send us an email to info@trece.se

Returns: TreCes policy is not to accept returns except for defective products.

Warranty: The warranty is valid from the delivery date of the product. Invoice/order number must be provided for the warranty to be valid. The warranty does not apply to products that have been stored or assembled incorrectly, used in an inappropriate or improper manner, altered in appearance/function or cleaned with an incorrect cleaning method or cleaning products. The warranty does not cover shipping damage, normal wear and tear, scratches, marks or damage caused by impact or accident. The warranty does not cover products that have been placed outdoors or in a damp environment, or products that have been used for purposes other than those for which they are intended.

For products intended for outdoor use, the above-mentioned humid environment does not apply, but the warranty period is halved for products installed within 200 m of a coastal environment. The warranty does not apply to outdoor products that develop surface corrosion over time as this is purely aesthetic and can be corrected with touch-up paint.

CombiLine: 5 years warranty

Space: 5 years warranty

Accessories such as recycling bins, bag holders:

1 year warranty

Indoor recycling units: 2 years warranty

Outdoor recycling units: 2 years warranty

Clean: 2 year warranty

Locks: 2 years warranty
