Why choose TreCe?

We are one of the leading Nordic suppliers of storage furniture. We have reached this position by developing continuously.

With over forty years of experience we have together with our customers managed to collect a lot of knowledge, and through the years we have learned what works.

Our long experience together with a strong innovation drive drives us forward and creates the conditions for continuously developing new storage and recycling solutions.

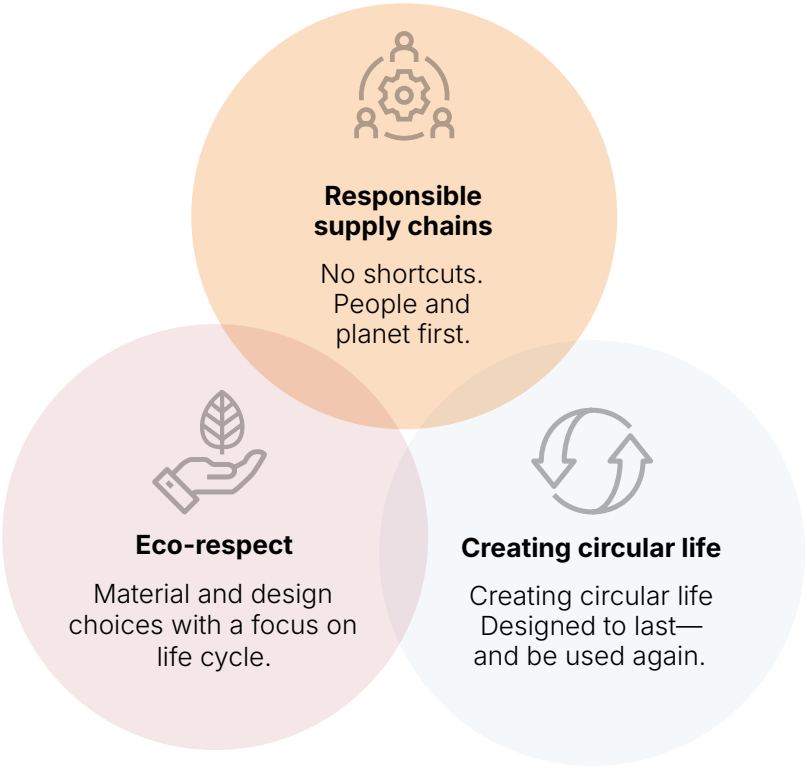

Design & sustainability

Voices that act. Decisions that last.
Products built to live longer.

We're not looking for words that sound good.
We're looking for decisions that last.

That's how we work with sustainability and design: by creating storage and waste-sorting products made to be used for a long time, repaired when needed, and fit into circular flows. We take a life-cycle perspective in product development—from raw materials and production to use, maintenance, and end-of-life—to make more informed choices.

→ Learn more about our journey

Cooperation is key

We value our customers' opinions because they offer crucial insights into which products we should develop to meet market needs. Before starting any project, we take time to understand what challenges exist and create a plan to solve them - together. By working closely with our customers from the first conversation to the final delivery, we ensure their ideas and feedback are part of every step.

We are experts in storage
We are happy to share our knowledge with our customers, whether it is about flexibility and function in the modern office or smart solutions for the activity-based offices of the future. With our experience and knowledge, we create an optimal solution.

Feel free to contact us for a presentation, to find out more about how we can together create a working solution.

Our designers
At TreCe, we have designed several of our products ourselves. These have in most cases taken shape based on needs we have seen in the market but also from the input that our customers give us.

We have also chosen to collaborate with other designers. This has in several cases proved to be a stroke of luck. With new input, innovative solutions and a fantastic design, we have won international awards.

Cooperation is the key.

Our designers

Kauppi & Kauppi

Kauppi & Kauppi is a design duo working with furniture, lighting and industrial design - from large spatial objects down to objects in the scale of the hand.

Nina and Johan have their roots in the south and north of Sweden and both have a Master's degree in Design from HDK, the Academy of Art and Design at the University of Gothenburg.

Kauppi & Kauppi's close collaborations with manufacturers have been recognized with several national and international design awards.

Bernstrand & Borselius

The two designers, Thomas Bernstrand and Stefan Borselius, have been working together for 8 years, but both have been in the industry considerably longer.

Bernstrand and Borselius have been running their own design offices for over 20 years, specializing in furniture and interior design. Bernstrand in Stockholm and Borselius in southernmost Skåne.

Over the years, they have worked with several prestigious companies together and separately. In 2022 they jointly launched a collaboration with TreCe.

Jangir Maddadi

Jangir is passionate about creating objects with a strong identity. Every millimetre of his design is contemplated. Each object has its own history. Every product he creates is a beautiful, functional sculpture. He strives to design meaningful products that live on from generation to generation.

One ambition is to always create innovative and sustainable products that are functional, beautiful and completely independent of trends. Products that are neither modern nor classic, they are timeless.

Annica Doms

Educated at Luleå University of Technology. Annica's Master degree project, Kite Bin for TreCe, has been awarded the Red Dot Design Award and the German Design Award. Today, Annica is a design consultant at Studio Doms.

The collaboration with TreCe is based on relevant and well-thought-out design that supports every function, inspired by functional design from the past.

David Doms

Designer and founder of Studio Doms. David has a master's degree in industrial design from Luleå University of Technology and has also studied lighting and luminaire design.

Studio Doms was started in 2010 and the company is today active in the areas of furniture design, product design, design strategy and graphic design.

Ebba Hellberg & Sigrid Ljungström

A contributing factor to TreCe's continuous development of innovative design solutions is our recurring collaborations with design students. Recycling unit Cloud is a well-priced example, developed together with Chalmers students Ebba Hellberg and Sigrid Ljungström.

Cloud has quickly developed into a product family and won first prize in the German Design Award 2019, Excellent Product Design in the category office furniture/environmental sorting.

lilli Shelf

Design | **Bernstrand & Borselius**

lilli is a modular shelving system in its most flexible form—designed with care, built for change. Use lilli as open storage, or as a creative room divider with character.

With just a few carefully selected components, you get a smart system that's easy to adapt to your needs. Four cast zinc connectors, wooden pillars in five heights, shelves in two depths, and dividers in wood, metal, and mesh—all fastened with elegant leather straps. Add the triangular shelves to create soft, organic shapes.

Every detail is selected with a focus on sustainability and quality. lilli is made in Sweden and built to last. Fully demountable, recyclable, and easy to refresh or expand as your needs evolve.

Space

Personal storage

Design | **TreCe**

Space Personal Lockers and Wardrobes are specially designed to manage personal belongings in office and public environments. Space is easy to integrate thanks to its cohesive and well-thought-out design. The carefully crafted details, such as fully covered locker doors, create a seamless and silky smooth feel.

The frames are available in standard white or can be lacquered in any NCS colour. Visible parts such as fronts, plinths, side panels, and top surfaces are available in lacquered NCS colours, oak, or ash laminate. Space comes with a plinth as standard, but for a more open design, the plinth can be replaced with lacquered legs for an additional cost. The legs are available in our 11 standard colours.

Locks and Closures
We offer various types of locks and closures for our doors, such as electronic RFID locks, code locks, cabinet locks, padlock fittings, and push-to-open. For network-based locks, contact TreCe for individual advice.

Accessories
For Space storage cabinets, accessories such as movable shelves, mats, etc., are available.

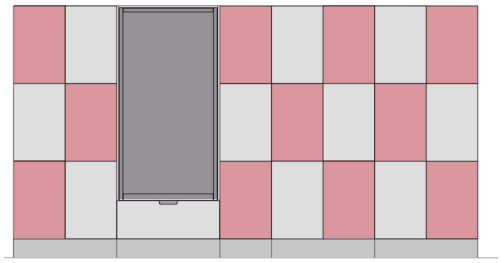

Customisation
Space can be customized in both material and dimensions if you wish to put your own stamp on the furniture. Contact TreCe for advice and a quote.

Space

Public storage

Design | **TreCe**

Space Office Shelf/Cabinet are flexible modules designed for shared storage in offices and public spaces. Space is easy to integrate thanks to its cohesive and well-thought-out design. The carefully crafted details, such as fully covered doors, create a seamless and stylish appearance.

The modules in the Space series are designed to fit together, allowing your creativity to flow freely as you build your unique solution. Choose from several different heights for the frames and fronts.

Locks and Closures
We offer various types of locks and closures for our doors, such as electronic RFID locks, code locks, cabinet locks, padlock fittings, and push-to-open. For network-based locks, contact TreCe for individual advice.

Accessories
For Space storage cabinets, accessories such as movable shelves, mats, etc., are available.

Customisation
Space can be customized in both material and dimensions if you wish to put your own stamp on the furniture.
Contact TreCe for advice and a quote.

Space

Cabinet/Recycling unit

Design | **TreCe**

Space Cabinet/Recycling Unit are flexible modules designed for shared storage and recycling in office spaces. Space is easy to integrate thanks to its cohesive and well-thought-out design, featuring a comfortable working height of 882 mm. The carefully crafted details, such as fully covered doors, create a seamless and sleek appearance.

The single and double module frames can be freely combined with shelves, partitions, doors, and drawers in various styles. The fronts are fully covered and equipped with push-to-open fittings, except for doors with disposal chutes. You can choose from one of the pre-designed modules or create your own variant.

Matching bin holders are available as accessories. Pre-designed modules with disposal chutes in the front feature a pull-out bin holder behind the door, recommended for waste bags of 85-125 litres. Worktops in compact laminate or high-pressure laminate can be ordered with cut-outs.

Space

Recycling

Frame/Front: 16 mm

Plinth: 143 mm

Volume: 85 - 125 L

Overview

- Counters and recycling units at working height, 822 mm.
- Frames in single and double modules can be freely combined with shelves, partitions, doors and drawers in several variants.
- Choose freely from any of the complete modules or assemble your own variant.
- Suitable bag holders are available as accessories.
- Modules with front inlets have the inlet positioned at a height of 700 mm (H70) on the door as standard. Behind the door, there is a convenient, pull-out bag holder for rubbish bags of 85 - 125 liters.
- The fronts are complete and easily opened with push open fittings. Does not apply to doors with inlets.

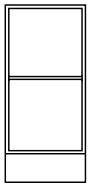

Complete modules

Frame, plinth, back 16 mm thick: In white direct laminate, with 0.8 mm straight ABS edging.
Fronts, 16 mm thick, lacquered MDF:
White/White = Body in white laminate with fronts lacquered in NCS S 0500-N, white.
White/NCS = Frame in white laminate with fronts lacquered in any NCS colour.
Plinth height: 143 mm
Inner dimensions of drawer H182: B325 x H127 x D420 mm
Inner dimensions of drawer H366: B325 x H311 x D420 mm.

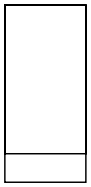

Space Cabinet has drawers with high sides, 100% extension, max load weight 35 kg with push open fittings.

CombiLine

Combi shelf

Design | **TreCe**

The Combi shelf, an adaptable storage unit. Build freely from floor to ceiling. Utilise the wall surface with a wall mounted combi shelf and create a unique module by freely combining together with optional accessories.

The Combi shelf is available in standard white or lacquered in any NCS colour. Worktops for the lower models are also available as a supplement.

Accessories such as legs, wheels and doors can be found on pages 92-94. Work tops for the lower modules can be found on page 90-91.

Download product sheet

White: Direct laminate. **NCS:** Lacquered MDF (water-based), optional NCS.

Dimensions: Width x Height x Depth (height incl. plinth). **Frame:** 19 mm. **Plinth:** 157 mm.
Mounting strip is included in all wall mounted products.

Möbelfakta

*Several of the modules meet Möbelfakta's requirements for quality, environment, and social responsibility, making them a safe and sustainable choice.

CombiLine

Cabinet

Design | **TreCe**

Space-efficient cabinets that utilize all areas of the office with the ability to build and combine your own layout. Choose between different modules, open, with doors or with drawers. With accessories such as leg sets, wheel sets and different types of drawers, storage can easily be tailored to the office's needs.

Cabinets are available in two different standard heights 880 and 1057 mm. The standard widths are 310 mm, 605 mm, 800 mm and 900 mm.

Stainless steel handles are included as standard, it is of course possible to get other colors or handles. Suitable worktops are available in several materials and designs.

Printer cabinet

Design | **TreCe**

Printer cabinets can be easily combined with other storage furniture to create a uniform and stylish storage in the copy room or in the office. When you place the printer on the printer cabinet, a perfect ergonomic height is created because this cabinet is 704 mm high and lower than ordinary cabinets. This makes it possible to easily access the printer's functions and create an ergonomic working position.

You can make your printer cabinet mobile with wheel sets or add adjustable legs in stainless steel.

Stainless steel handles are included as standard, it is of course possible to get other colors or handles.

Standard widths of 605, 800 and 900 mm.

Mail sorting

Design | **TreCe**

Complete module series for mail sorting. Adaptable to the needs, tastes and preferences of the height or width of the floor or wall with any number of mail shelves. Mail shelves with reach-through capability makes it possible to handle mail from both sides.

The mail storage can be supplemented with more mail shelves for a division between the shelves of c/c 64 mm or c/c 32 mm. A pull-out shelf for extra work space is included as standard on most of our floor-standing mail sorts, which promotes an ergonomic working position.

Stainless steel handles are included as standard, it is of course possible to get other colors or handles.

Recycling unit

Frame: 19 mm
Front: 16 mm
Plinth front: 75 mm
Volume: 10 - 240 L

Möbelfakta

*Several of the modules meet Möbelfakta's requirements for quality, environment, and social responsibility, making them a safe and sustainable choice.

*MD34, MDH60, MDS34/3L, MDS60/1L, MD34/3L, MD34/2L, MD70, MDS34, MDS60/3L, MD34/W, MDL60, MDS34/1L, MD60, MD34/1L, MD65

Overview

- Recycling units consisting of several modules which can easily be combined to cover the comapany's entire recycling.
- Offering everything from small recycling units with small containers placed in drawers, to larger stations with 240 L-containers.
- Containers are also available separately in sizes 10 - 240 L.
- Larger environmental units are always equipped with an access ramp in stainless steel.

White: Direct laminate. **NCS:** Lacquered MDF (water-based), optional NCS.

Worktops

High pressure laminate, 23 mm standard work tops coated with high pressure laminate and 2 mm airtec-lipping.

Airtec-lipping, also known as laser edging, provides an almost invisible joint between the worktop and edging strip. Thus provides a higher protection against water and heat. This new technology is glue-free, which results in a lower environmental impact.

Contact TreCe if you want a top disc in another material.

Specifications Space

MFC laminated surfaces within Space have a chip core, with the exception of some shelves. Back, frame and edging strip have matching colours unless otherwise stated.

Lacquered fronts, Shoe shelf, Open shelf/Bench and Storage box open/Flower box have an MDF core: Water-based lacquer. Textiles at an additional cost.

Frame incl. plinth
Thickness 16 mm, 0.8 mm straight ABS-lipping.
- MFC laminate, white.
- Lacquered, any NCS-colour.
- Double module, width 790 mm.
- Single module, width 395 mm.

Back
Thickness 16 mm, same finish as the cabinet, inside and out.

Plinth
Each unit has its own setback plinth, front and rear, with 4 adjustable feet. Plinth height 143 mm.

Leg stand
Leg stand in steel with adjustable feet, 4 legs. Delivered not fitted to cabinet, leg stand must be adjusted in height before cabinet is lifted on.
- Leg stand double fits Space double.
- Leg stand triple fits 1x Space double + 1x Space single.
- Leg stand height 143 mm.
- Available in 11 RAL colours.

Fronts
Seamless fronts, thickness 16 mm
- Lacquered MDF in any NCS colour, water-based.
- Direct laminate in oak and ash with 2 mm straight ABS lipping.

Inside dimensions:
- Space door low: W363 x H424 x D454 mm.
- Space door middle: W363 x H573 x D454mm.
- Space door high: W363 x H864 x D454 mm.

Drawers
Drawers have soft closing. Extension capacity of 100%, maximum weight 35 kg. Drawers with railings or with elevated sides.

Doors to Space recycling units and Space counter
With push open.

Seat module with hatch door
Opens downwards with gas spring.
Milled-in handle. Are powder coated white as standard. Can be painted in any RAL colour at an additional cost.
Cushions and fabric are additional.

Shoe shelf, Open shelf/Bench and Storage box open/Flower box
Thickness 16 mm.
- Lacquered MDF, any NCS colour, oak and ash laminate.
- Modules aligned with fronts.
- Plant pot can be combined with plastic box 19 L.
- Accessories: Seat cushion.

Double doors Wardrobes
With milled-in handles. Are as standard powder coated, white. It can be painted in any RAL colour at an additional cost.

Mail inlet
Powder coated steel, White (RAL 9010).
Opening 290x20 mm. Mail inlet has an angled steel lip on the inside of the door.

Hinges
- Self closing concealed hinges with integrated soft closing.
- Doors are right-hung as standard.

Shelves, fixed
Shelves mounted with milled-in connection fittings that are secured with screws.
- Shelves lockers have a chip core
- Shelves for wardrobes have a lamellar wood core.

Shelves, movable for personal storage
The shelf is recessed in the front edge.
Mounted with milled shelf brackets, movable according to drill division c/c 32 mm.

Shelves, movable for storage
Installed with milled shelf brackets, movable according to drill division c/c 32 mm.
- 363 - 371 mm has chip core thickness of 16 mm.
- 755 mm has laminated core with pine wood thickness 19 mm, max weight 120 kg.

Cover panels/Top cover
Thickness 16 mm.
Lacquered MDF, any NCS colour, oak and ash laminate.

Top cover in compact laminate, black core
Thickness 12 mm.
- F2255, white
- F2297, anthracite
- F5343, olive grey

Worktop in high pressure laminate
Thickness 23 mm
High-pressure laminate: 23 mm standard boards coated with high-pressure laminate and a 2 mm matching air tech-lipping*
Formica Collection Colors
F2255, white | F2297, anthracite | F5343, olive
Pfleiderer Wood decors
R20095, Oak | R34027, Ash

Inlets for top cover, compact laminate
- Inlets square B220 x D220 mm
- Inlet custom, max. size B220 x D260 mm

Accessories
Space shelf insert, clothes rail, carpet, clothes hook, anchor hook, mirror and cork box Stuff.

Cabinet locks
Robust cabinet locks with master key system, individual lock numbers and 2 keys as standard. Identical locks are available at extra cost.

Lock types
Different types of locks and fittings are available for doors, such as electronic RFID locks, code locks, cabinet locks, padlock fittings and push-to-open. For network-based locks contact TreCe for individual advice.

General care instructions

Metal
Wipe with a slightly damp, soft lint-free cloth and mild detergent. Always wipe dry with a dry cloth. Never use solvents on painted metal nor any abrasive cleaners/ materials.

Wood
Wood is a living material and is affected for example by seasons, heat and humidity. Direct sunlight will give surfaces permanent colour and light differences. To avoid colour shifts, all surfaces should be exposed to equal amounts of light.

Normal/daily cleaning:
Dust dry and clean with mild soap solution or mild hand washing-up liquid. Wipe dry with a dry cloth. Never use strong detergents, solvents or products containing abrasives. Remove all stains as soon as possible and wipe the surface dry after cleaning.

Note! Use a minimum amount of water.

General info

***Airtech-lipping:** Airtec-lipping, also known as laser edging, provides an almost invisible joint between the worktop and edging strip. Thus provides a higher protection against water and heat. This new technology is glue-free, which results in a lower environmental impact.

Mounting
All modules are factory mounted. Worktops/ Cover panels/Top cover panels are mounted on site.

Warranty
We provide a 5 year factory warranty on Space. Other products, contact TreCe.

Contact TreCe for customisation of selected product.

Specifications CombiLine

MFC laminated and lacquered surfaces within CombiLine have a chip core, with the exception of some shelves. Back, frame, doors and edge strips have the same colour/wood as other parts as standard, unless otherwise stated.

- Round with diameter 110, 250 or 400 mm.
- Square 250x250 mm or 350x350 mm.
- Slim 340x40 mm.

Lid for insert: Powder-coated steel. Available for round inserts with diameters 250 and 400 mm.

Inserts: Stainless steel, integrated ring in worktop. Round 250 mm in diameter.

Lid for insert: Compact laminate, folded in/integrated into ring, thickness 6 mm
- Round 250 mm in diameter with knob.
- Compact laminate, Formica F2297 (anthracite) alt. F2255 (white).

General care instructions

Metal
Wipe with a slightly damp, soft lint-free cloth and mild detergent. Always wipe dry with a dry cloth. Never use solvents on painted metal nor any abrasive cleaners/materials.

Wood
Wood is a living material and is affected for example by seasons, heat and humidity. Direct sunlight will give surfaces permanent colour and light differences. To avoid colour shifts, all surfaces should be exposed to equal amounts of light.

Normal/daily cleaning:
Dust dry and clean with mild soap solution or mild hand washing-up liquid. Wipe dry with a dry cloth. Never use strong detergents, solvents or products containing abrasives. Remove all stains as soon aspossible and wipe the surface dry after cleaning.

Note! Use a minimum amount of water.

General info

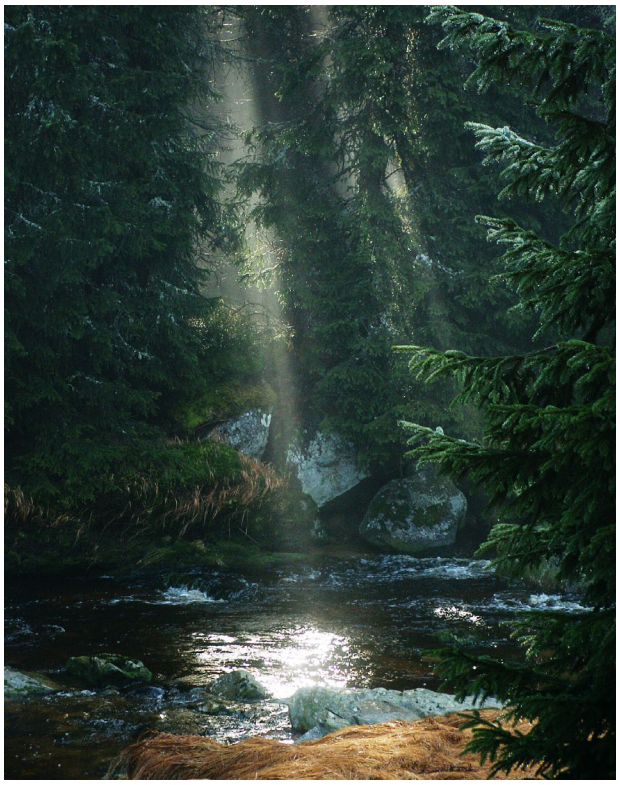

***Airtech-lipping:** Airtec-lipping, also known as laser edging, provides an almost invisible joint between the worktop and edging strip. Thus provides a higher protection against water and heat. This new technology is glue-free, which results in a lower environmental impact.

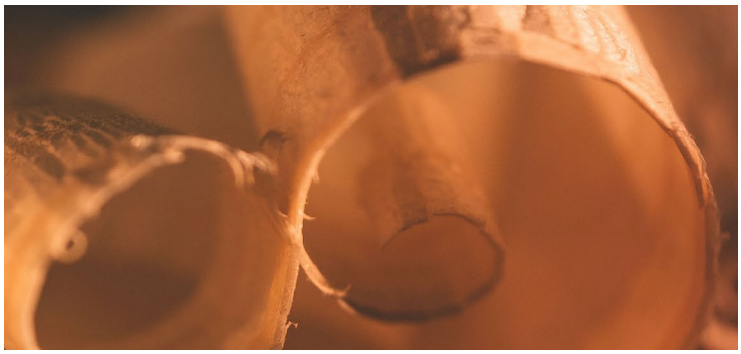

Mounting
All modules are factory mounted. Worktops/Cover panels/Top covers are mounted on site.

Warranty
We provide a 5 year factory warranty on CombiLine. Other products, contact TreCe.

Cabinet locks
Robust cabinet locks with master key system, individual numbers with 2 keys as standard. Identical locks available to addition. Contact TreCe for customization of selected product.

Our sustainability work

Our focus

Eco respect
We work with materials and construction where we can make the biggest practical difference: less unnecessary material, smarter solutions, and more thoughtful choices. When we track climate impact, we use established life-cycle principles as decision support and carry out calculations for selected products or areas where it is relevant.

Responsible supply chains
Sustainability is also about people. That's why we set requirements for responsibility in areas such as working conditions, human rights, and the environment—and follow up using a risk-based approach. We aim to build relationships that stand up to scrutiny and evolve over time.

Circular lives
Circularity doesn't happen by itself. It is designed. We develop products with a focus on long service life— and solutions that can facilitate reuse, service, repair, and material recycling where it is possible and relevant.

Transparent sustainability communication

We don't try to sound "greener" than we are. We avoid broad statements without a clear basis and instead describe what we do, how we do it, and what it covers.

Terms and conditions

Sales and Delivery Terms: All prices are excluding VAT and shipping. We reserve the right for any price and design changes and reservation for printing errors.

All products are delivered FCA (our warehouse) according to Incoterms 2020 unless otherwise agreed. Some products are delivered unassembled. Costs for packaging, certified pallets and pallet collars will be added.

Payment terms: 30 days after approved credit check unless otherwise agreed. Delivered products remain our property until full payment is made.

Transport damage: In the case of visible damage or incomplete delivery, this must be reported immediately to the transport company and noted on the consignment note. The freight forwarder confirms the listing with his signature. Damage that is not visible upon receipt is reported to the transport company as soon as possible, but no later than 6 working days from the date of receipt.

Claims: In the event of a product defect or if the content of the delivery deviates from the order, a claim must be made within 6 days of arrival date. Send us an email to info@trece.se

Returns: TreCes policy is not to accept returns except for defective products.

Warranty: The warranty is valid from the delivery date of the product. Invoice/order number must be provided for the warranty to be valid. The warranty does not apply to products that have been stored or assembled incorrectly, used in an inappropriate or improper manner, altered in appearance/function or cleaned with an incorrect cleaning method or cleaning products. The warranty does not cover shipping damage, normal wear and tear, scratches, marks or damage caused by impact or accident. The warranty does not cover products that have been placed outdoors or in a damp environment, or products that have been used for purposes other than those for which they are intended.

For products intended for outdoor use, the above-mentioned humid environment does not apply, but the warranty period is halved for products installed within 200 m of a coastal environment. The warranty does not apply to outdoor products that develop surface corrosion over time as this is purely aesthetic and can be corrected with touch-up paint.

lilli: 5 years warranty
