

Kite mini

Design | Annica Doms

Kite, has retrieved both its name and its appearance from the geometric shape of a kite. The straight angles give a bold and exciting expression, and at the same time harmonise with the room and its shape. The unique form holds angles of 60 °, 90 ° and 120 ° which makes it ideal to place in corners with varying angles. Kite mini has the same shape and is an exact copy of Kite, but in a reduced size. This gives a clear "family feeling" and a uniform expression.

Kite mini is intended for smaller spaces like under desks, hotel rooms or smaller conference rooms. There is also a wall mount for Kite mini, which means that it can be placed on the wall. As single or in pairs to free floor space. Kite mini is available in 11 RAL colours. Lids in colour white or anthracite with 6 different screen printed symbols for recycling. Kite mini holds 10 litres.

Sustainability & Material

The lid's MDF meets E1 requirements for formaldehyde. MDF from certified forestry. The frame in powder-coated steel plate is manufactured in Sweden and consists of 20% of recycled material. The steel is 100% recyclable. The powder coating of the frame is a good environmental choice as no solvents are required. Base in 100% recycled ABS plastic, marked for recycling according to ISO 11469. In line with our environmental strategy, Kite mini is delivered unassembled.

- No fittings
- No tools
- Easy to assemble

Frame: Powder-coated steel plate.
Lid: Vacuum-foiled MDF with screen print.

Kite mini Recycling

QUICK INFO.

Content	Certification TreCe	Certification TreCe
Environmental & social aspects	ISO 9001:2015	ISO 14001:2015
Country of manufacture	Recycled material	Recycled material
Sweden	20% recycled steel (frame)	100% recycled ABS plastic (base)

SVHC/ECHA's candidate list

No chemicals included in ECHA's candidate list of SVHC may be contained in levels of >0.1% by weight in the components, parts or chemicals that are included or used in the manufacturing of the furniture/product. See <http://echa.europa.eu/en/candidate-list-table>

Metal – frame

The frame consist of cold-rolled steel plate and are manufactured in Sweden. In the production of steel blanks, 20% recycled material is used together with iron raw material ore (80%). The steel plate meets the requirements in table 1.

Table 1: Requirements metal

Requirements	Complies
Metal that will have prolonged contact with skin (e.g. armrests) must not consist of alloys containing nickel, chromium III or chromium VI.	X

Powder coating

Kite mini is painted with powder coating which provides both environmental and quality benefits as no solvents need to be added and the amount of waste is very small. In addition, the powder coating gives a durable and stylish finish. Fulfilled requirements are shown in tables 2 and 3. Safety data sheets according to REACH CLP-regulation no1272/2008 are sent on request.

Table 2: Requirements surface treatment

Requirements	Complies
The content of aromatic solvents / hydrocarbons in surface treatment products / preparations may not exceed 1.0% by weight.	X
Surface treatment with preparations containing VOC may have a maximum applied VOC component of 60 g / m ² for office / public / outdoor environment.	X

Table 3: Hazard class and hazard statement according to Regulation 790/2009

Hazard category	Hazard statement according to regulation 790/2009	Complies
Acute toxicity	H300, H301, H310, H311, H330, H331	X
Toxic to body organs	H370, H371, H372, H373	X
Carcinogenic	H350, H351	X
Mutagenic	H340, H341	X
Toxic for reproduction	H360, H361	X
Allergenic	H334	X
Dangerous to the environment	H400, H410, H411, H412, H413 If the use of surface treatment products is required for technical reasons, products labelled as dangerous to the environment (H400, H410, H411, H412, H413) may be acceptable if the content of environmentally hazardous substance <14 g/per m ² of surface.	X

Wood – lid

The lid is made of MDF. Routines must be in place to ensure that wood based materials are traceable and come from legal and acceptable sources, see table 4.

Table 4: Requirements wood

Requirements	Complies
MDF meets the requirements for CARB Phase 2 and TSCA Title V	X
Has legal ownership and access rights	X
Follows nationally and locally applicable laws and regulations regarding use, environment, labour and welfare, health and safety, and other parties' rights.	X
Pays the relevant taxes and charges related to use.	X
Follows CITES regulations (only applicable to certain tree species, see the CITES website).	X
The wood complies with the requirements for formaldehyde emission requirements according to E1.	X

Plastic – bottom/base

The bottom consists of 100% recycled ABS plastic and meets the requirements for plastic, see table 5. To facilitate sorting of plastics during material recycling, we have permanently marked bottom with the plastic type according to ISO 11469.

Table 5: Requirements plastic

Requirements	Complies
Plastic parts >50 grams are permanently marked according to ISO 11469	X
Free from PVC (polyvinyl chloride)	X
Softeners/phthalates classified as hazard classification H360 have not been actively added or that the measured level does not exceed 0.1% by weight/substance and component.	X
Short-chain chlorinated paraffins (SCCPs) must not be actively added or that the measured level must not exceed 0.01% by weight/substance and component.	X
The following flame retardants have not been actively added or that the measured level does not exceed 0.1% by weight/substance and component.	X
Polybrominated biphenyls (PBBs) CAS-nr: 59536-65-1 Decabromodiphenyl ether (dekaBDE) CAS-nr: 1163-19-5 Pentabromodiphenylether (pentaBDE) CAS-nr: 32534-81-9 Oktabromodiphenylether (oktaBDE) CAS-nr: 32536-52-0 Tris (2,3-dibromopropyl) phosphate (TBPP) CAS-nr: 126-72-7 Tris (1-aziridinyl) phosphine oxide (TEPA) CAS-nr: 5455-55-1 Hexabromocyclododecane (HBCDD) CAS-nr: 25637-99-4 Tris (2 chlorethyl) phosphate (TCEP) CAS-nr: 115-96-8	
No pigments containing lead, cadmium, tin, chromium VI or mercury have not been actively added or that the measured level does not exceed 0.01% by weight per component.	X

Social responsibility

We have ensured that this product is manufactured under good conditions, ie. with regard to social and ethical issues such as working conditions, human rights, labour, environment and corruption. We have sent these requirements to our suppliers and subcontractors, who have each certified that they are followed. A summary is shown in table 6 and applies to the entire manufacture process of a product and it's components. The starting point is the UN guidelines on the "Code of Conduct" and Möbelfakta's requirements for Social Responsibility are formulated on the basis of the UN's Global Compact. As well as conditions for social and ethical considerations regarding tax irregularities and illegal labour. The principles are based on below;

- UN Universal Declaration of Human Rights
- Rio Declaration on Environment and Development
- International Labour Organization (ILO) eight core conventions on human and labour rights
- UN Convention against Corruption
- Work environment requirements based on ILO conventions on health and safety

Table 6: Summary requirements for social responsibility

Requirements		Complies
Legislation	The furniture and its components must be manufactured in accordance with national legislation.	X
Human Rights	Producers, manufacturers and suppliers operations must comply with human rights.	X
Working conditions	Wages, child labour, conditions of employment, working hours, benefits, penalties, freedom of association, forced labour and discrimination.	X
Working environment	The company must constantly strive to improve the working environment and workplace safety for its employees.	X
Environment	Identify environmental impact, work actively with environmental issues and involve staff. Procedures for law compliance must be in place and followed up.	X
Anti-corruption	No form of extortion, corruption, bribery or favoritism to or from employees or organizations is tolerated.	X
Tax irregularities /fraud	In addition to the statutory obligations applicable to the employees concerned, shall also anti-labour and tax fraud are applied, such as illegal workers.	X
Undeclared/illegal labour	No undeclared/illegal labour shall be hired to preform product manufacturing.	X
