

Clean – a flexible hand sanitiser dispenser stand

Having good hand hygiene is important to protect both yourself and others from reducing the spread of infection and virus. Sanitising your hands is something that most people do when visiting shops, restaurants, offices or other public places. When TreCe realised that the spread of infection became a problem in society, we began to think about how we could contribute, and came up with our own solution. A hand sanitiser floor stand, which is based on the customer's needs. Flexibility and simplicity are important to many and we have chosen to focus on that. The foundation is a stand with a stable base, with accessories you need and believe are of importance to yours customers. Two different models of bottle holders (750 ml and 1000 ml) with leaking tray, holders for Tork M1 dispenser, a small bin and a sign for your own message (horizontal A4).

The stand consists of perforated holes on the front and back, where you simply hook on the accessories you have chosen in the place you want. In a preschool, you may choose to place the accessories at a lower height than in a high school, for example.

Sustainability and material

Clean is made of Swedish quality steel and powder coated in Anthracite grey color RAL 7016. The stand and other parts in powder-coated steel sheet are manufactured in Sweden and consist of 20 % recycled material. The steel sheet is 100 % recyclable. The powder coating of the frame is a good environmental choice as no solvents are required. Inner container in 100 % recycled plastic and is dishwasher safe.

Anthracite RAL 7016

Clean sign holder A4.

Clean bracket Tork M1, Tork M1 not included*.

Clean dispenser holder, Small.

Clean dispenser holder, Small and Large.

Clean bracket Katrin touchfree dispenser. Dispenser not included*.

Clean dispenser holder, Small, Large and Hold mini.

* You buy Tork M1 and Katrin Touchfree Dispenser from your daily office supplier.

Material: Powder coated steel

This is how you order Clean:

1. Choose stand
2. Add accessories – dispenser holders
3. Add accessories – sign holder
4. Add other accessories such as holder for Tork M1, Clean Hold mini waste bin.

SVHC/ECHA's candidate list

No chemicals included in ECHA's candidate list of SVHC may be contained in levels of >0.1% by weight in the components, parts or chemicals that are included or used in the manufacturing of the furniture/product. See <http://echa.europa.eu/en/candidate-list-table>

Metal – stand

The stand consist of cold-rolled steel plate and are manufactured in Sweden. In the production of steel blanks, 20% recycled material is used together with iron raw material ore (80%). The steel plate meets the requirements in table 1.

Table 1: Requirements metal

Requirements	Complies
Metal that will have prolonged contact with skin (e.g. armrests) must not consist of alloys containing nickel, chromium III or chromium VI.	X

Powder coating

Clean is painted with powder coating which provides both environmental and quality benefits as no solvents need to be added and the amount of waste is very small. In addition, the powder coating gives a durable and stylish finish. Fulfilled requirements are shown in tables 2 and 3. Safety data sheets according to REACH CLP-regulation no1272/2008 are sent on request.

Table 2: Requirements surface treatment

Requirements	Complies
The content of aromatic solvents / hydrocarbons in surface treatment products / preparations may not exceed 1.0% by weight.	X
Surface treatment with preparations containing VOC may have a maximum applied VOC component of 60 g / m ² for office / public / outdoor environment.	X

Table 3: Hazard class and hazard statement according to Regulation 1272/2008

Hazard category	Hazard statement according to regulation 1272/2008	Complies
Acute toxicity	H300, H301, H310, H311, H330, H331	X
Toxic to body organs	H370, H371, H372, H373	X
Carcinogenic	H350, H351	X
Mutagenic	H340, H341	X
Toxic for reproduction	H360, H361, H362	X
Allergenic	H334	X
Dangerous to the environment	H400, H410, H411, H412, H413 If the use of surface treatment products is required for technical reasons, products labelled as dangerous to the environment (H400, H410, H411, H412, H413) may be acceptable if the content of environmentally hazardous substance <14 g/per m ² of surface.	X
Hazardous to the ozone layer	H420	X

Social responsibility

We have ensured that this product is manufactured under good conditions, ie. with regard to social and ethical issues such as working conditions, human rights, labour, environment and corruption. We have sent these requirements to our suppliers and subcontractors, who have each certified that they are followed. A summary is shown in table 4 and applies to the entire manufacture process of a product and its components. The starting point is the UN guidelines on the “Code of Conduct” and Möbelfakta’s requirements for Social Responsibility are formulated on the basis of the UN’s Global Compact. As well as conditions for social and ethical considerations regarding tax irregularities and illegal labour. The principles are based on below;

- UN Universal Declaration of Human Rights
- Rio Declaration on Environment and Development
- International Labour Organization (ILO) eight core conventions on human and labour rights
- UN Convention against Corruption
- Work environment requirements based on ILO conventions on health and safety

Table 4: Summary requirements for social responsibility
