

Compact archive

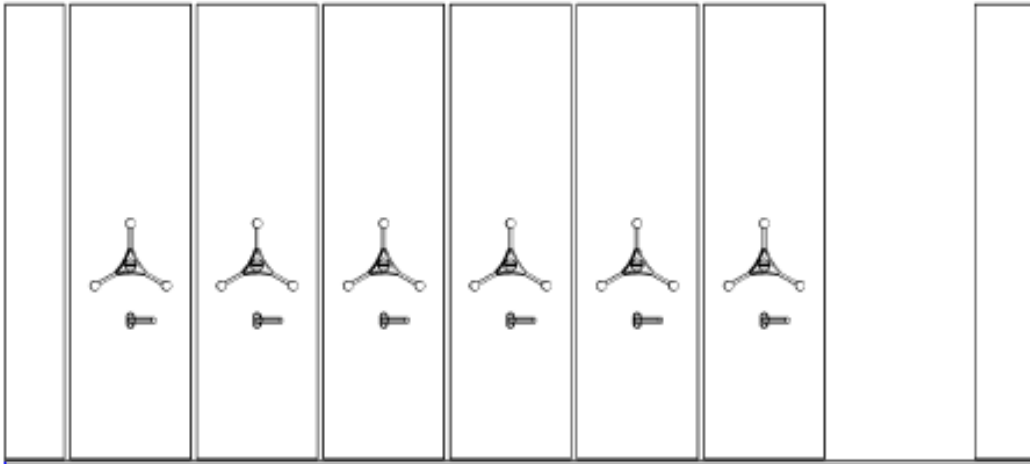

Steel

Design | TreCe

Robust, flexible archive for efficient storage of large quantities. Gables and shelves in lacquered steel plate can withstand high loads, 50-120 kg per shelf at distributed load. It's also possible to customise the archive so it can hold even more weight. Choose between steering wheel or power steering.

Can be adapted to different archive formats, for example landscape A4 or portrait A4. The height, width or length of the system can be easily adjusted as required.

Compact Archive with steering lock for added security.

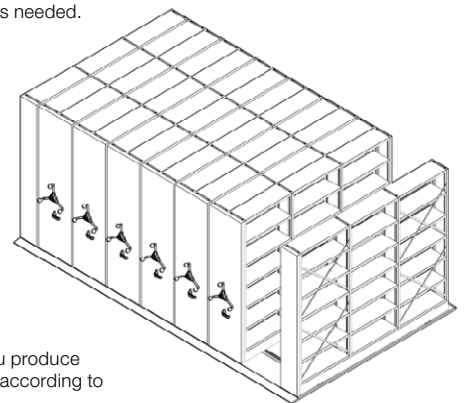

Steering wheel-driven compact archive that can be customised to the customer's needs.

Compact archives can also be built in two floors.

A flexible compact archive in lacquered steel sheet that can be customised to the different formats archived, ex A4 or standing A4.

The height, width or length can be adjusted and designed as needed.

We are happy to help you produce drawings and proposals according to your needs or conditions.
